### Specifications

|                                         | U.S. Standard                                      | Metric                                             |
|-----------------------------------------|----------------------------------------------------|----------------------------------------------------|
| Model:                                  | QC/V                                               | QC/V                                               |
| Current Baseline Element:               | Aluminum (AL)                                      | Aluminum (AL)                                      |
| Number of Channels:                     | 32                                                 | 32                                                 |
| Number of Elements Inspected as Set-Up: | 13                                                 | 13                                                 |
| Elements Inspected:                     | Si, Fe, Cu, Mn, Mg, Ni, Zn, Sn, Cr, Cd, Pb, Ti, Al | Si, Fe, Cu, Mn, Mg, Ni, Zn, Sn, Cr, Cd, Pb, Ti, Al |

### Features & Accessories:

- Currently Configured for Aluminum Base Materials
- Baseline element: AL (aluminum)
- Number of element inspected: Thirteen (13)
- Elements Inspected: Si, Fe, Cu, Mn, Mg, Ni, Zn, Sn, Cr, Cd, Pb, Ti, Al

### Terms of Sale:

**Price:** [sold](#)

**Shipping Terms:** Ex-works
